Aplia is a learning solution
that increases student effort and engagement.
Testimonials | Current Users | Featured News
"I agreed to try out the company because of the e-book option and am thrilled to say that everything went smoothly; from help designing my class the way I wanted it, to learning how to navigate and monitor student effort. Aplia makes on-line learning easy to access while delivering quality instruction for the professor and the students. I look forward to the day I can use Aplia to enhance all my courses."
- Ann Tippett, Business Communication, Monroe Community College, NY
